What is a Member Protection Information Officer (MPIO)

A member protection Information officer (MPIO) is the first point of contact for members to go to should they have a concern or a complaint. The MPIO is responsible for providing information about your rights, responsibilities and options when making a complaint or raising a concern. Your MPIO will also provide you support during this process if needed. Importantly MPIO's are not a person who investigates matters, advised, or advocates for the complainant.

MPIO's will assist BMX to manage and resolve member issues and concerns. Queensland's three trained MPIO's are looking forward to helping all zones in developing a positive culture for current and future members. We also aim to help educate members to ensure all people know their rights and responsibilities within the sport of BMX and to promote the safe, fair and inclusive environment we have at BMX Queensland.
